Key Benefits for Your Care Home.

Reliable WiFi Coverage

Keep your care home connected with MESH WiFi, providing fast and reliable internet throughout the building. From staff managing records to residents staying in touch with family, seamless connectivity ensures smooth operations and happier residents.

Effortless Communication

Simplify team communication with Elevate UC, a cloud-based phone system that also works on mobiles and tablets. Staff can make and receive calls anywhere, ensuring reliable contact with families and healthcare professionals, even when working on the move.

Handsets That Fit Every Role

Equip your team with handsets that suit their needs, from robust and reliable cordless phones for caregivers on the move to desk phones for office staff. Combined with smart features like call forwarding, they help ensure every call is answered efficiently.
