

Keep Your Business Connected with Fast, Reliable Fibre Broadband.

Why Choose F One for Your Internet Connectivity?

At F One, we specialise in delivering business-grade internet solutions that keep your business connected, no matter its size or location.

Whether you operate in a busy city centre or a remote area, we offer a range of reliable options to meet your needs. From superfast Fibre to the Premises (FTTP) to dedicated Ethernet with guaranteed high speeds, and even mobile broadband or satellite connections for harder-to-reach locations, we ensure your business stays online and productive.

Our solutions are designed to handle everything from everyday browsing to data-intensive operations, giving you fast, secure, and dependable connectivity.

-  **Superfast FTTP**
Enjoy lightning-fast speeds of up to 1000 Mbps with Fibre to the Premises, perfect for data-heavy businesses.
-  **Dedicated Ethernet**
Experience unparalleled reliability and speeds up to 10,000 Mbps with dedicated fibre connections that guarantee no competition for bandwidth.
-  **Satellite Broadband**
Access high-speed internet in remote locations with our easy-to-install satellite broadband solution.
-  **Mobile Broadband**
Get fast and flexible internet with 4G and 5G mobile broadband, delivering speeds comparable to full-fibre connections.
-  **Seamless Backup Options**
Ensure uninterrupted connectivity with backup solutions like 4G/5G SIM integration for instant failover.
-  **Reliable Connection Uptime**
Our internet solutions are designed with redundancy and resilience, ensuring maximum uptime so your business stays connected and productive even during peak usage or unexpected disruptions.
