

Stay Safe Online with Reliable Protection from SmartProtect.

Why Choose SmartProtect to Protect Your Business Online?

At F One, we know how critical online safety is for your business. That's why we've introduced SmartProtect, a comprehensive security solution that keeps your business protected from online threats.

Designed to block harmful websites, viruses, and phishing scams, SmartProtect works quietly in the background, giving you peace of mind while ensuring your internet remains fast and your team stays productive.

With no complicated setup and 24/7 real-time protection, SmartProtect makes online security simple, effective, and affordable.

-  **Comprehensive Threat Protection**
Actively blocks over 10,000 threats daily, including malicious websites, viruses, and phishing attempts, keeping your business safe from online dangers.
-  **24/7 Real-Time Security**
Enjoy round-the-clock protection with automated scans and updates that safeguard your network and devices against emerging threats.
-  **Easy Setup and Management**
Start protecting your business instantly with no complicated installation required. SmartProtect automatically configures itself for effortless security.
-  **Cost-Effective Solution**
Protect your business for just £12.99 per month with no long-term commitments. Enjoy premium security without straining your budget.
-  **Employee Awareness Training**
Includes tools to help train your staff to recognise phishing scams and other online threats, making your entire team part of your defence system.
-  **Peace of Mind**
With 99.9% website security and continuous updates, you can focus on your business while SmartProtect takes care of online safety.
